### Mining Agreement Report

There was nothing new to report.

### Road Reports

Bryce Black talked to Jeff Branden of the Kraemer Company about the availability of crushed rock and was told September was the earliest the rock could be supplied although a deal could possibly be made about getting rock from another quarry. The Board was not inclined to make a deal on rock that is owed to the Town.

Pepin County Foreman Doug Gruber has reported that seal coating was done on most of the roads that were specified. Mowing of brush will be done on Elk Creek Road and Gates Hill Road. The culvert on Porcupine Road needs to be reset lower and possibly extended. Barber Lane was seal coated, the culvert was inspected and found to be serviceable. The culvert on Maple Lane was not inspected.

Doug Gruber was asked about sign inspections. The Highway Department has an employee who conducts sign inspections, inventories them and enters their position into GPS. Doug Gruber stated that sign inspection does not need to be done every

year. The Board decided to have the inspection done once and see what it cost and ask for an inventory of signs and have these on a separate billing line.

The Board examined the Construction and Maintenance Services Contract with the Pepin County Highway Department. Highway Commissioner Kris Quandt has requested that the Town add an addendum of the services the Highway Department is expected to provide. Bryce Black and Curt Stine will work on the addendum and bring it to the next meeting.

The Board looked at a sample Town Transportation Resolution. There was a question if the Town has already passed a similar resolution. This will be researched and if there was not a previous resolution this will be taken up at the next Board meeting.
